COMPANY SUMMARY

Right-Click GIS Maps, LLC (Right-Click GIS) has been providing GIS services under SIN code 541370GIS since June 2022. The company is led by Nicole Castro, who has over 20 years of expertise in GIS and environmental consulting. Right-Click GIS focuses on the analysis and mapping of environmental impacts related to land development, renewable energy initiatives, and the maintenance and reconstruction of electric and gas right-of-ways. Nicole creates tailored mapping solutions and comprehensive mapping that facilitate field operations and address various project siting and permitting requirements.

We also offer GIS support services to local governments, which include aiding in forest inventory and assessment initiatives, refreshing regional recreational trail maps, developing new maps for Natural Resources Inventory / Plan of Conservation and Development reports, and updating data for web GIS applications.
